

Keys of a successful project

01

INITIATION

The action or process of commencing, starting, or introducing something, such as a ritual, activity, membership, or organization, making its inception or beginning.

02

PLANNING

The process of setting objectives, developing strategies, outlining tasks, and allocating resources to achieve specific goals, ensuring effective and efficient utilization of resources to attain desired outcomes.

03

EXECUTION

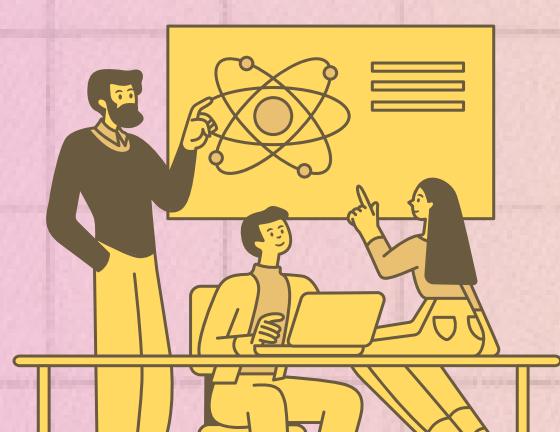

The act of implementing or carrying out plans, strategies, or actions to achieve predetermined goals, turning ideas into reality through effective and efficient implementation.

04

MONITORING

The ongoing process of observing, assessing, and evaluating activities, progress, or systems to ensure they align with established plans, standards, or objectives, and identifying areas for improvement.
